

## Product Description

### DiarPECT

---

<b>Description</b>	DiarPECT is a complementary feed for calves which contains extracted pectin. Therefore, it is suitable to support digestion in critical periods of young animals rearing. Due to its good dispersibility, the light brown powder can easily be fed via drinking water, milk or milk substitute.
<b>Composition</b>	dextrose, pectin, citrus pulp (dried, depectinised), sodium chloride, sodium bicarbonate, potassium chloride
